

Learn The Body Mirror System of Healing

with its creator

Martin Brofman

Notodden, Norway 18th-22nd September 2013

Your thoughts create your reality. This unique healing system, developed by Martin Brofman, is a synthesis of Western psychology and Eastern philosophies based on the chakras. Because each of these chakras can be associated with certain parts of the consciousness as well as certain parts of the body, they allow us to read the body as a map of the consciousness within. Thus, tensions in the body are seen to reflect tensions in the consciousness, and the chakras can be used as a vehicle to understand the Body Mind Interface and its implications for healing.

During the course you will exchange 6 healings with other participants. You will receive healing and learn to:

- Feel and direct energy, and see energy; auras, chakras, thought forms.
- Understand the relationship between your body and your consciousness.
- Understand how symptoms in the body reflect tensions in the consciousness.
- Read the body as a map of consciousness, understanding the inner cause to outer symptoms.
- Understand the chakras and their associations with specific parts of the consciousness and specific parts of the body.
- Use various tools designed for healing; white light, colors, thought forms
- See results of putting these techniques and tools to use.

Martin Brofman is a former Wall Street computer expert who developed the Body Mirror System and the Vision Workshop through his experiences of releasing himself of a terminal illness which traditional medicine had considered hopeless - untreatable - and returning to perfect health. During his own healing process, he learned much about the Body Mind Interface, the relationship between the body and the consciousness, and how it works. He then developed a model in order to clarify these ideas for himself, as well as to provide a vehicle for teaching them easily and quickly to others.

This is a unique opportunity to attend a Body Mirror Healing course with Martin Brofman presented in English (without translation to Norwegian).
